January 2020 Update

- City of Newcastle and Forterra request \$35,000 from the community by January 31st to fund a full property appraisal.
- The appraisal is needed to establish fair market value and secure outside funding, with the goal of purchasing property and preserving it as green space.
- Help us raise \$35,000 to save DeLeo Wall from clear-cut logging, which will destroy trails, trees, and habitat; and could cause landslides, fires, and runoffs.
